## DIRECTOR'S DESK

With a deep sense of joy and gladness I would like to present the Annual Report of 2023-2024.

*"I dream of a world in which the discarded can become protagonists of change." – Pope Francis*

Salem Social Service Society continues to work for the poor and the discarded by enabling them to live with dignity, by strengthening the attitude of sharing and by respecting each other with love and brotherhood. SSSS plays a vital role in supporting and facilitating communities facing poverty, deprivation, marginalization and exclusion at the gross root level.

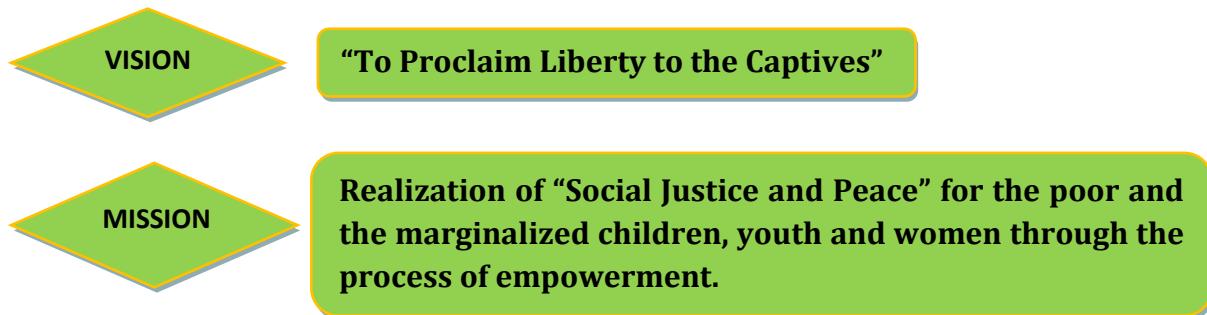

In order to enable the excluded and disadvantaged communities in the society, SSSS focuses its interventions through children education, vocational skill training programmes, capacity building programmes, income generation programmes, strengthening people's organizations to enhance their living status. The expertise, technological interventions, and use of social networking have facilitated SSSS to empower the target communities through various projects implemented for the socio-economic development.

Poverty, hunger, disease, disability etc. prevail in the society due to prevalence of social and economical imbalance. Hence, SSSS functions as an agent of change through development interventions to light the lives of the people living in Namakkal and Salem Districts. SSSS strives to tap the Central and State Government agencies to implement various programmes for the betterment of rural and unreached communities in developing skills, enhancing livelihood options and enabling to live with rights and dignity.

SSSS has completed one more year of its service in the field of developmental activities that brought about a visible change in the lives of the people through different projects and programs. I take this opportunity to express my deep sentiments of gratitude to all the Donor agencies, General, Governing body members and Social Work Commission of SSSS, all operating partners, Fathers and Sisters in the Diocese and the Staff of the organization who have contributed their best services to accomplish the goal and objectives of each project in tune with the vision and mission of the organization. Still there is a long way to go as we see people living in difficult living conditions and socially excluded situations. SSSS is committed to carry forward more programs on health, education and community mobilization for our people in the Diocese of Salem. We appreciate your support and guidance and seek your valuable services and encouragement.

Rev.Fr. L. David

## CASE STUDY

**Panchayat: Thammampatti**

**Village: Kondayampalli**

People's major work in Kondayampalli village is thatch leaf making for their livelihood development. The main activity of New Thrust project is to form a producer organization in trade level, based on that we motivated the Kondayampalli Self Help Group member to form a producer group organization. We have organized more trainings and visits to the Kondayampalli village to form a producer group. Finally the members understood the importance of producer group organization. First the members gathered the Individual Entrepreneur of thatch leaf makers in Kondayampalli village, then

they started the federation in the name of “**Inthinai Kitrumudaivor UrpathiyalarKulu**”. Now they have a share hold in the bank account in the above mentioned name and generate savings every month. Through this savings the members revolve the amount for their business.
